Single-culture microgreens

Individual cultures by the kilogram — for chefs, retail and further processing.

MICROGREEN	NOTES	WHOLESALE
Broccoli	Sulforaphane-rich; the functional flagship.	\$22.4 / kg
Kale	Mild, nutrient-dense.	\$21.7 / kg
Pak-choi	Juicy, faint mustard note.	\$29.4 / kg
Kohlrabi	Sweet, crunchy brassica.	\$31.9 / kg
Arugula	Nutty-peppery, aromatic.	\$33.2 / kg
Red mizuna	Mild mustard, striking colour.	\$35.8 / kg
Red Coral radish	Mild heat; coral stems, green leaf.	\$16.6 / kg
Sango radish	Deep purple, peppery.	\$30.7 / kg

Indicative wholesale, ex-works, excluding VAT. MOQ, packaging and delivery quoted per order; contracting & shipping via our Türkiye trading house.

WHY OUR MICROGREENS

Pesticide-free · harvested to the day · year-round

- Grown on aeroponic systems
- ≈95% less water
- No pesticides
- Consistent, standardized quality
- High bioactive density
- Extract-ready via deep processing

The same produce is the feedstock for our high-value **bioactive compounds** — sulforaphane, anthocyanins, lutein, carotenoids and polyphenols — supplied to the pharma, nutraceutical and cosmetic industries. See aerponics.farm/compounds.
